PROFESSIONAL SUMMARY

Full Stack Developer with 1 year of remote professional experience, with additional hands-on experience in web development and WordPress. Experienced in building responsive web solutions, working with clients and team members, troubleshooting issues, and delivering projects to requirements and deadlines. Background in Telecommunication Engineering with practical experience in embedded systems and RF projects.

EDUCATION

BS Telecommunication Engineering

Hazara University — Mansehra, Pakistan

2022 – 2026

FSc (Pre-Engineering)

Abasen Public School & College — Mansehra, Pakistan.

2019 – 2021

WORK EXPERIENCE

Full Stack Developer — Techifyee

2025 – 2026 | Remote | 1 Year

Remote Professional Experience

- Worked on full-stack web development projects, contributing to both user-facing features and application functionality.
- Developed responsive web solutions based on project requirements and maintained a focus on usability and performance.
- Collaborated remotely with team members, communicated progress, and resolved development issues throughout the project lifecycle.
- Tested and debugged web applications to identify issues and improve reliability across different devices and browsers.
- Worked with version-controlled development workflows and delivered assigned tasks according to project deadlines.

Web Developer & WordPress Specialist

Jul – Sep 2024 (3 Months)

CIMT Township, Mansehra

- Designed responsive websites using HTML5, CSS3, and WordPress for small businesses and personal brands; customized themes and built landing pages.
- Ensured cross-browser compatibility and mobile responsiveness; managed client communication and delivered projects on schedule.

FINAL YEAR PROJECT

Arduino-Based RF Power Detection Using AD8318 | Hardware & Embedded Systems

- Designed and implemented an RF power measurement system using the AD8318 logarithmic detector IC, measuring signals from -65 dBm to 0 dBm.
- Programmed an Arduino microcontroller to read, calibrate, and display real-time RF power levels on an LCD.
- Assembled and tested the circuit on a breadboard; performed signal testing across frequency bands and documented hardware-software integration

SKILLS

Web Development

HTML5
CSS3
WordPress
Responsive Design

Telecommunications

RF Systems
Signal Processing
Network Fundamentals
Antenna Theory

Embedded & Hardware

Arduino
AD8318 IC
Breadboard

Tools & Communication

MS Office
Google Workspace
VS Code
Technical Writing
SEO Content

CERTIFICATIONS & ACHIEVEMENTS

- Successfully delivered 3+ web development projects for clients across diverse industries.
- Consistently met content writing deadlines with high client satisfaction and repeat engagement.
